

Finland Tampere production of solar container battery factory

Overview

Where will Taaleri Energia invest in a battery energy storage system?

Taaleri Energia announces its first battery energy storage system investment. Taaleri Energia will invest in a 30 MW / 36 MWh battery energy storage system in Lempäälä, some 25 kms south of Tampere. The facility will be one of the largest battery energy storage systems operating in the Finnish frequency reserve market.

How will a battery energy storage facility help Fingrid Energia?

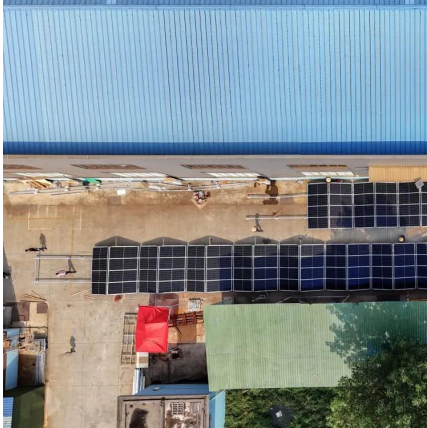

The battery energy storage facility will support the balancing of production and consumption in the main grid by participating in Fingrid's reserve market and help to balance Taaleri Energia's own wind portfolio.

When will Taaleri SolarWind III be acquired?

The project will be acquired, as part of a development seed portfolio, by the Taaleri SolarWind III Fund shortly after the first close of the Fund, which is expected to take place in Q2 2023. The SolarWind III Fund will continue to look at battery energy storage investment opportunities across its target markets during its investment period.
