

Flywheel energy storage project is accelerating construction

Overview

Where is China's first large-scale flywheel energy storage project?

From ESS News China has connected to the grid its first large-scale standalone flywheel energy storage project in Shanxi Province's city of Changzhi. The Dinglun Flywheel Energy Storage Power Station broke ground in July last year.

What is the largest flywheel energy storage system in the world?

Image: Shenzen Energy Group. A project in China, claimed as the largest flywheel energy storage system in the world, has been connected to the grid. The first flywheel unit of the Dinglun Flywheel Energy Storage Power Station in Changzhi City, Shanxi Province, was connected by project owner Shenzen Energy Group recently.

What is China's first grid-connected flywheel energy storage project?

The 30 MW plant is the first utility-scale, grid-connected flywheel energy storage project in China and the largest one in the world. From ESS News China has connected to the grid its first large-scale standalone flywheel energy storage project in Shanxi Province's city of Changzhi.

Who financed China's largest flywheel energy storage system?

The project was developed and financed by Shenzen Energy Group. Image: Shenzen Energy Group. A project in China, claimed as the largest flywheel energy storage system in the world, has been connected to the grid.
