

Foldable Container Hybrid Type for Oil Platforms

Overview

What is seafold HC 40?

Compact Container Systems (CCS) has launched the SeaFold HC 40' container, the world's first five-in-one, foldable shipping container to improve operating inefficiencies, reduce unnecessary container movements, and dramatically reduce carbon emissions throughout the transportation and logistics supply chain.

What is an offshore container?

Unlike standard shipping containers, offshore containers are engineered to withstand the unique challenges of sea transport. For example, rough handling, extreme weather and corrosive conditions—all whilst adhering to the strict safety requirements for offshore installations.

What are oil platforms?

They are equipped with the necessary machinery and facilities to support offshore energy production. Or "Oil platforms are large structures used for drilling and extracting oil and gas in lakes, coastal waters, and on the continental shelf, often connected to remote wells.

What are the different types of offshore containers?

Offshore containers are designed for extreme marine environments, ensuring durability, safety, and compliance. Key types include Cargo Carrying Units (CCUs), reefer containers, workshop units, accommodation containers, and hazardous goods storage.
