

Foldable containers for fast charging in subway stations

Overview

What is a 3-in-1 foldable charging station?

The 3-in-1 foldable charging station is an all-in-one charging solution that can charge up to three devices wirelessly at once. It is portable, convenient and easy to use, letting you charge your smartphone, smartwatch and earbuds and AirPods at the same time.

What is a foldable charging station?

Our Foldable Charging Station frees up your hands and charges your devices with 15W of powerful charging. Use as a stand while charging your devices and clean up your desk or nightstand by creating space and eliminating cords. Just fold up the charger and be on the go with our new innovative travel friendly charging station.

Why should you buy a foldable charging dock?

This foldable charging dock comes with multiple safety features such as short-circuit protection, over-current protection and over-voltage protection to keep your devices safe while they are charging. It is designed to be eco-friendly and energy-efficient, allowing you to save money and be more environmentally conscious.

What is CCS DC fast charging?

CCS DC Fast Charging - Featuring dual 150kW CCS chargers, suitable for high-speed public and commercial EV charging. Sustainable Innovation: Utilises second-life EV battery packs, extending their lifespan by up to 25 years while reducing carbon footprint and costs.
