

Foldable portable solar water pump

Overview

They are 100% autonomous and pump water without the need for fuel or electricity. All parts, solar panels, controller, charger, water pump come in a 3 oversized wheels trailer. What is a solar powered water pump?

Solar-powered Water Pumps: These pumps use energy from the sun to power electric pumps, which extract water from the ground. The price and technology have evolved in recent years, allowing solar-powered water pumps to be a more affordable, reliable and environmentally sustainable solution to water scarcity.

What is a foldable solar panel?

See more [High Efficiency](#) The foldable solar panel is constructed of high-efficiency solar arrays, conversion rate is up to 24% of solar power into electrical energy. The built-in smart chip intelligently identifies your device, and maximizes its charging speed while protecting your device from overcharging and overloading.

Can I put flex solar panel Charger in water?

Please do not immerse the panel in water! [WHAT YOU WILL GET](#) You will get 1* FlexSolar 10W solar panel charger, 2* Carabiners, 1* User manual. 10W (depending on sun availability) is tested in an ideal laboratory. Cloud cover or coverage may affect the charging speed, it is recommended to put this solar panel charger in direct sunlight.

Are IP67 solar panels waterproof?

[WATERPROOF & DURABLE](#) IP67 waterproof and EF laminations provides lasting durability to protect against unpredictable weather conditions, and can easily withstand high temperatures. Worry-free off-grid charging, best emergency power device to have. Note: The surface of the solar panel is waterproof, but the output port is not water-resistant.
