

French public electrochemical energy storage project

Overview

What is France's biggest battery energy storage system?

It will have a storage capacity nearly five times larger than France's current largest operational battery. From ESS News Lisbon-headquartered renewable energy company TagEnergy has launched the construction of France's biggest battery energy storage system (BESS).

What is the Cheviré battery project?

Battery storage developer Harmony Energy is set to deliver France's largest battery energy storage system (BESS) — the Cheviré battery project — using Tesla Megapack technology. The project will mark a significant milestone for the French energy system, being France's first large-scale two hour battery.

Will Tesla build France's biggest battery energy storage system?

Lisbon-headquartered renewable energy company TagEnergy has launched construction of France's biggest battery energy storage system (BESS). Tesla will contribute to the project also, offering market access services and its expertise in advanced storage solutions.

Will ABN AMRO be the largest battery energy storage system in France?

Dan Dorner, Chief Commercial Officer Corporate Banking said: "We are happy to have supported this landmark project, which will become the largest battery energy storage system in France upon its completion. This marks ABN AMRO's first BESS transaction in France, and builds upon our broader BESS and renewable energy track record.
