

Georgetown Solar Street Lights

Overview

What is a Falcon solar street light?

Series Falcon solar street led light combined with Lithium battery and Mono Solar Panels to ensure the long life and high efficacy of the solar street light system.

Are street lights solar powered?

You see, while these street lamps are primarily solar-powered, they also have a built-in mechanism that allows you to install a vertical-axis wind turbine. Meaning even if there's no sunshine for days or weeks, you can still power up the street lights.

How bright is a solar-powered street lighting system?

The brightness of a solar-powered street lighting system depends on the efficiency of its LED chips. What to Look For: Lumens per watt (lm/W): Higher efficiency means brighter light with lower energy consumption. Recommended LED chips: Bridgelux, Cree, and Philips, which are known for their high performance.

Which solar street light is best for a government project?

If you are working on a serious government project, all in two solar street light will be a good option for you. Commercial high power solar flood light, billboard light as the pioneer models comparing with the normal household solar floodlight. Lumen output up to 16000lm.
