

German-made mobile energy storage container earthquake-resistant type for field operations

Overview

Why do we make energy storage solutions 'made in Germany'?

Our advanced, highly flexible energy storage and energy management solutions 'made in Germany' can be easily integrated into any system and process environment and make an important contribution towards a regenerative economy. We develop, test and produce in Germany and our portfolio meets all relevant industry standards.

What is energy storage container?

Energy Storage Container is an energy storage battery system, which includes a monitoring system, battery management unit, particular fire protection system, special air conditioner, energy storage converter, and isolation transformer developed for the needs of the mobile energy storage market.

What is mobile energy storage?

Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.
