

Germany Hamburg generator container

Overview

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for $+45^{\circ}\text{C}$. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

How long can a diesel generator run a container?

A diesel generator is able to run a container for up to 5 days without the need to refill fuel. At MT Container GmbH in Hamburg, you can buy or rent generators for your containers, of course always after a comprehensive expert consultation. We also offer repair and maintenance for generators, containers and reefers.

Are Jenbacher containers available for gas engines?

Jenbacher containers are available for Type 2, 3, 4 and 6 gas engines. Our containerized solutions ensure excellent reliability for your power and heat generation needs.

Can a generator run a refrigerated container?

A generator can be an important addition to your refrigerated container. A diesel generator is able to run a container for up to 5 days without the need to refill fuel. At MT Container GmbH in Hamburg, you can buy or rent generators for your containers, of course always after a comprehensive expert consultation.
