

# H-bridge inverter 20KW

## Overview

---

What is s6-eh3p (12-20)K-H series energy storage inverter?

S6-EH3P (12-20)K-H series three-phase energy storage inverter, suitable for large residential and small commercial PV energy storage systems.

What is a cascaded H-bridge inverter?

Cascaded H-bridge inverter is defined as a multilevel inverter configuration that consists of a series combination of H-bridge inverters, each powered by isolated voltage sources, enabling the use of different DC sources such as fuel cells and solar photovoltaics.

What is a second stage H-bridge multilevel inverter?

The second stage is a modified three phase H-Bridge Multilevel Inverter controlled by second order generalized integral (SOGI) technique for pumping the sinusoidal and less distorted power extracted from PV into the distribution grid.

What is the simulation circuit of H-bridge multi-level inverter for grid integration?

The simulation circuit of H-bridge multi-level inverter for grid integration is shown in figure 3. A PV module of 250V, 2KW is connected to SEPIC converter integrated 5-level inverter in order to supply the load of 1KVA as well as grid of 50Hz. INC algorithm is used as MPPT in order to extract maximum power from PV module.
