Overview

Does Vietnam have a rooftop solar market?

The rooftop solar market in Vietnam has witnessed remarkable growth, with the total capacity for solar power reaching approximately 16,567 MW by the end of 2022. Notably, rooftop solar alone contributes over 9,000MW to this figure, underscoring the significant role of rooftop installations in the nation's renewable energy portfolio.

How to unlock Vietnam's rooftop solar potential?

Policies like feed-in tariffs and power agreements boost rooftop solar by ensuring returns and easing rules. Challenges like low awareness, regulatory gaps, and grid issues must be addressed to unlock Vietnam's rooftop solar potential.

How many MW is rooftop solar power in Vietnam?

As of the end of 2024, rooftop solar power in Vietnam contributed over 9,500 MW to the total installed capacity of approximately 103,000 MW. This significant growth underscores the country's commitment to renewable energy. What government policies support rooftop solar power adoption in Vietnam?

.

What policies support rooftop solar power adoption in Vietnam?

Government policies in Vietnam that support rooftop solar power adoption include feed-in tariffs, Direct Power Purchasing Agreements (DPPA), and draft decrees that promote self-produced and self-consumed solar energy. These measures create a favorable environment for solar energy development.
