

Heishanyuan Energy Storage Project

Overview

Will China develop new energy storage systems between 2025 and 2027?

BEIJING, Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure the stability of new-type power systems.

Why is China moving to a new type of energy storage?

The move is part of China's broader push toward a green, low-carbon energy transition as well as high-quality economic and social development. It builds on significant growth in the sector. As of the end of 2024, the country's installed capacity of new-type energy storage had reached 73.76 million kilowatts, according to official data.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

Heishanyuan Energy Storage Project

China unveils three-year action plan to boost new-type energy storage

Sep 12, 2025 · China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

China energy storage project pipeline grows nearly 140 GWh ...

Sep 2, 2025 · According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage activity, with 1,468 new project ...

[What are China Resources Haiyuan's energy storage projects?](#)

Sep 21, 2024 · China Resources Haiyuan's energy storage projects include 1. Advanced Lithium-ion Batteries, 2. Pumped Hydro Storage Systems, 3. Integration with Renewable Energy ...

[China's mega energy storage project kicks off ...](#)

Jul 21, 2025 · The Kashgar energy storage project strengthens the power grid, reduces solar discharge and promotes sustainable development in ...

[China's mega energy storage project kicks off](#)

Jul 21, 2025 · The Kashgar energy storage project strengthens the power grid, reduces solar discharge and promotes sustainable development in Xinjiang.

China switches on its largest standalone battery storage project

Jul 21, 2025 · The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents ...

[Across China: Pioneering energy storage system lights up](#)

Jul 13, 2025 · Now, the project's photovoltaic output has increased from the previous maximum of 1.5MW to 12MW. "Over 10 days of monitoring, Huawei's grid-forming energy storage ...

[China switches on its largest standalone ...](#)

Jul 21, 2025 · The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on ...

China energy storage project pipeline grows by 140 GWh in ...

Image: Fluence From ESS News China continued its high-growth energy storage market expansion in July 2025, with 1,556 new energy storage-related projects filed for registration, ...

Over 6GWh! A Comprehensive Summary of China's Energy Storage ...

Nov 18, 2025 · Since November, China's energy storage sector has witnessed the concentrated announcement of bid results for numerous projects across the country. Centralized ...

[Investment in China's Independent Energy Storage Sector ...](#)

(Yicai) Dec. 12 -- Investment in independent energy storage projects in China has soared since the National Development and Reform Commission scrapped the previous rule requiring new ...

China Turn On Its Largest Standalone Battery Storage Project

Jul 24, 2025 · 2GWh standalone battery storage project in China China's largest standalone battery storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents ...

[China energy storage project pipeline grows ...](#)

Sep 2, 2025 · According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage ...
