

# How much does Prague Communication s 5G base station cost

## Overview

---

What is a 5G strategy in the Czech Republic?

It sets out a national strategy of 5G deployment in the coming years. It is part of the Digital Czech Republic concept and the Innovation Strategy of the Czech Republic 2019-2030. For digital connectivity mapping, an infrastructure mapping website has been established by the Czech Telecommunication Office (CTU).

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

How much does 5G infrastructure cost?

The total cost of 5G infrastructure is staggering, with projections estimating that telecom companies will spend over \$2 trillion globally by 2030. This includes investments in spectrum, network densification, fiber backhaul, energy-efficient infrastructure, and emerging technologies such as AI and automation.

How much does a private 5G network cost?

The cost of deploying a private 5G network for enterprises typically falls between \$250,000 and \$1 million, depending on the size and complexity of the installation. Unlike public networks, private 5G is customized for specific business needs, such as industrial automation, smart factories, and secure corporate communications.
