

# How much does a 40-foot solar container cost in Australia

## Overview

---

Can you build a container home in Australia?

Building a container home in Australia is an exciting, cost-effective path to home ownership — but understanding costs and regulations is critical. Unlike modified shipping containers, our purpose-built modular homes are designed for BAL-FZ compliance, energy efficiency, and long-term durability.

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

How much does a shipping container cost in Australia?

Shipping containers can cost roughly \$2,000 and go well up to \$20,000, depending on their size, material, and purpose. If you want to use these containers for residential purposes, prices can go higher depending on the desired build, size, and specifications. Location affects shipping container home prices in Australia.

How much does a 40 foot container cost in Australia?

A 40 foot container will cost at least around \$700 more. Rates will vary depending on the country. Much like Asia, Australia largely imports electrical machinery, mineral fuels, vehicles, medical supplies and additional pharmaceuticals, precious metals, and home goods. Their biggest exports are iron ores, coal, gold, and beef.
