

How to connect the power supply of linkage base station

Overview

How do I set up a base station?

Set up the base station using either the tripod or T-bar mounting method. You must use an external radio antenna kit for the internal 450 MHz or 900 MHz radio. To avoid interference between the 900 MHz radio and GPRS transmissions, do not mount the external radio antenna within 1 m (3.3 ft) of the GSM antenna.

What is a managed base station?

Trimble recommends that base stations that are connecting from a portable, daily-use setup are treated as unmanaged base stations and those used for permanent or semi-permanent setups where the receiver will be in the same place for a longer period of time are treated as managed base stations.

How do I check if a base station is connected to IBSS?

Check the base station details to ensure that the base radio is indicating it is connected to IBSS through an SNM941 Connected Site Gateway. Your base station is now up and running. Log into to check the status. Equipment: Procedure: Insert the SIM card into the SNM940 modem, if required, and then reseal the unit.
