

How to use Thimphu outdoor communication battery cabinet

Overview

What is an outdoor Telecom cabinet system?

The Outdoor Telecom Cabinet system includes rectifier modules, monitoring unit, power distribution units, battery packs, temperature control and other equipment, they are installed in an all in one outdoor cabinet. The all in one outdoor cabinet is divided into an equipment compartment, a battery compartment, and a wiring channel.

How to choose the power supply system of outdoor Telecom cabinet?

The power supply system of outdoor telecom cabinet is installed in the field environment, and the installation and maintenance conditions are complex. The feasibility and convenience of installation and maintenance operations, and the personal safety of operators should be considered in the design.

How to design an outdoor Battery Cabinet?

Use locks to stop unwanted access, fireproof materials for emergencies, and waterproofing to block rain. Good wiring and grounding are also important to prevent electrical risks. Design your outdoor battery cabinet with these 5 steps: choose the right size, materials, cooling, safety features, and ensure easy maintenance.

How to cool outdoor Telecom cabinet system?

The enclosure protection level of the battery compartment is required to reach IP44. The cooling methods of the Outdoor Telecom Cabinet system include: natural cooling, fan cooling, heat exchanger cooling, and air conditioning cooling.
