

Huawei has completed energy storage projects

Overview

What is Huawei's smart string energy storage technology?

The newly completed 12MWh energy storage project, which was developed in collaboration with SchneiTec, a renewable energy developer, features a 2MWh testbed designed to validate Huawei's Smart String grid-forming energy storage technology. The grid-forming technology was on display at Intersolar Europe 2025 last month.

Is Huawei a TÜV SÜD certified grid-forming energy storage system?

In related news, Huawei Digital Power, in collaboration with SchneiTec, recently commissioned Cambodia's first TÜV SÜD-certified grid-forming energy storage project on June 11, 2025. This 12 MWh system includes a 2 MWh testbed that validated Huawei's grid-forming ESS technology.

Is Huawei digital power a BNEF Tier 1 power inverter?

Huawei Digital Power is also recognized as a Tier 1 Power Inverter and Energy Storage Manufacturer by BNEF. It's not yet known if Huawei's Smart String Grid-Forming ESS platform will be used to provide grid support services, including inertia and short-circuit current. Grid-forming in Cambodia.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.
