

Huawei new energy storage vehicle sales

Overview

How much did Huawei sell last year?

The Huawei group posted sales of 4.7 billion yuan (about \$640 million) from its new vehicle division last year, more than double the previous year but still less than 1% of the group's total sales (704 billion yuan, about \$96.3 billion).

How many EVs did Huawei sell in November 2024?

Huawei's electric vehicle alliance called HIMA sold 49,474 EVs up 18% from 41,931 in November. HIMA includes brands Aito, Luxeed, Stelato, and Maextro. GAC Aion sold 46,851 NEVs, up 10.8% from 42,301 in November and up 2.0% from 45,947 the previous year. Cumulative sales in 2024 reached 412,943 NEVs, down 14.0% from 480,003 units in 2023.

Does Huawei make cars?

Here's What You Need to Know China's Huawei will spin off its intelligent automobile business unit into a Shenzhen Yinwang Intelligent Technology subsidiary by January 1, 2025. As the Chinese economic media Caixin reported, Huawei's automotive division, established in 2019, doesn't manufacture vehicles.

Why is Huawei entering the automotive market?

Huawei's entry into the automotive market comes as the industry experiences significant shifts. For decades, the car market has been dominated by American, European, and, more recently, Japanese and Korean companies, which also control the resources and technology used to make electric vehicles.
