

Huawei s polycrystalline solar panels in Lyon France

Overview

What is Huawei solar doing with kilowattsol SAS?

This June Huawei Solar started its cooperation with Kilowattsol SAS, one of the European market leaders in yield assessment for PV projects. According to Xavier Duval the Lyon based company assessed 42 percent of the bidded PV plants in France. The focus is on pooled ground-mount and rooftop PV projects with a capacity of more than five MW.

How much solar power does France have in 2023?

In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year. Despite this high ranking, solar PV power generation was still behind hydropower and wind renewable energy production.

Does Huawei have a presence in Europe?

Huawei is enhancing its solar activities and presence in Europe. Around 120 customers and investors joined the France FusionSolar conference of the inverter manufacturer in Lyon, France. "Size, large investments in R&D and long-standing experience in telecommunications."

Does France have a solar energy sector?

The exponential growth of the solar photovoltaic energy sector in France has never stopped since its inception in the early 2000s. In 2023, the PV energy capacity in France amounted to approximately 20.5 gigawatts, making France the fifth European country for cumulative PV capacity that year.
