

Industrial high power three-phase inverter

Overview

What is a 3 phase industrial hybrid inverter?

The 100kW 3-Phase Industrial Hybrid Inverter is a powerful and scalable solution designed to meet the demands of large industrial energy systems. Supporting parallel operation of up to 4 inverters, it can be expanded to an impressive 400kW capacity, making it ideal for high-power applications.

What is a three-phase inverter?

Modern electronic systems cannot function without three-phase inverters, which transform DC power into three-phase AC power with adjustable amplitude, frequency, and phase difference. They are essential in several applications, including as power distribution networks, renewable energy systems, and industrial motor drives.
