

Industrial switchgear factory in France

Overview

How did switchgear develop in France?

Early switchgear designs were relatively simple, mainly consisting of mechanical switches and fuses to control electrical circuits. These early systems played a crucial role in the expansion of electricity in French cities and industries. During the interwar period, the French switchgear market saw advancements in both technology and manufacturing.

What is Switchgear Industries?

Switchgear Industries is a dependable and famous manufacturer and supplier of various electrical control panels such as Plastic Molding Machine Control Panels, Flameproof Control Panels, APFC Panels, Power Distribution Panels, Marshalling Boxes, and RTCC Panels.

What is France's switchgear market?

France's switchgear market is a vital cornerstone of the country's electrical infrastructure, intricately linked to its dynamic history and a visionary future. Nestled in the heart of Europe, France's commitment to sustainable energy solutions and grid modernization underscores the pivotal role of switchgear in shaping its energy landscape.

Where are switchgears made?

Our range of switchgear is born and bred in Australia. We began our journey over twenty years ago and are proud to have supported many businesses across Australia, New Zealand and the Pacific during this time. Our local staff are the backbone of our organisation.
