

Intelligent Photovoltaic Energy Storage Container with Ultra-Large Capacity Product Warranty

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a lithium battery energy storage system?

Energy Storage System A sophisticated lithium battery energy storage system with an expandable range of 100-500kWh can accommodate excess solar power for stable supply during night hours or cloudy conditions. Inverter.

Which energy storage series products have full-stack coverage?

The energy storage series products of SVOLT achieved full-category coverage, providing a full-stack solution for cells, PACK, systems, and intelligent applications. Advanced staking process is adopted for SVOLT products and all series products have undergone penetration test to ensure safety.

What is photovoltaic power station energy storage project in Shandong?

It is one of the first batch of photovoltaic power station energy storage projects in Shandong, equipped with many functions such as peak load shifting, AGV/C dispatching, primary/secondary frequency regulation, etc. It can meet various requirements such as charging by abandoned light, demand side response, and grid side safety.
