For years Huawei have been at the forefront of residential and commercial solar inverters. Huawei are our go to inverter for commercial install. With an excellent price point and packed with cutting edge features. Solis inverters are an excellent solution for a no fuss cost efficient solar install.

What is a solar inverter?

A solar inverter is a critical component of any solar PV system. It converts the direct current (DC) electricity generated by your solar panels into alternating current (AC) electricity, which is what most household appliances and the grid use. Without an inverter, the power produced by your panels could not be used for your home or business.
