

# **Is Xiaomi s energy storage cabinet battery still in production**

## Overview

---

What does Xiaomi do with EV battery technology?

Xiaomi partners with industry leaders to revolutionize EV battery technology with sustainable, innovative solutions and smart ecosystems. Tags: Xiaomi, EV battery, CATL, BAIC, HyperOS, electric vehicles, sustainability, smart technology, innovation, Times BAIC, Beijing.

Is Xiaomi transforming the electric vehicle market?

The electric vehicle (EV) market is evolving rapidly, and Xiaomi has taken a significant step toward shaping its future. On December 31, 2024, Beijing Times Power Battery Co., Ltd. was rebranded as Times BAIC (Beijing) New Energy Technology Co., Ltd.

Is Xiaomi a cell-to-body battery?

Xiaomi states that its prototype supports a cell-to-body (CTB) design with a volume efficiency of 77.8 per cent. The battery is only 120 mm high, including the vehicle floor, and offers better space utilisation and improved weight distribution.

What does Xiaomi's new patent mean for solid-state battery development?

Chinese media reported a patent for the technology, which describes a layered electrode structure that improves ion conductivity and energy density. For Xiaomi, the new patent marks the technology company's entrance into solid-state battery development.

## Is Xiaomi s energy storage cabinet battery still in production
