

# **Is there any solar container outdoor power for sale in Jordan**

## Overview

---

What is the solar energy potential in Jordan?

The solar energy potential in Jordan is enormous as it lies within the solar belt of the world with average solar radiation ranging between 5 and 7 KWh/m<sup>2</sup>, which implies a potential of at least 1000GWh per year annually. Solar energy, like other forms of alternative energy, remains underutilized in Jordan.

Who is Solarity Jordan?

complete information about products. so that you don't miss any news! Solarity Jordan is a distributor and solutions provider of photovoltaic (PV) systems offering a complete assortment of solar modules and inverters.

Will Aqaba get a solar water heating system?

As per the Energy Master Plan, 30 percent of all households are expected to be equipped with solar water heating system by the year 2020. The Government is hoping to construct the first Concentrated Solar Power (CSP) demonstration project in the short to medium term and is considering Aqaba and the south-eastern region for this purpose.
