

# Jerusalem s largest solar power plant

## Overview

---

What is Israel's largest solar project?

Israeli solar developer Teralight said in a recent statement that it has started operating the country's largest solar project, Ta'anach 1. The 150 MW solar array is located in the Jezreel Valley of northern Israel and is projected to annually generate 310 GWh of solar energy.

Where is the largest photovoltaic power plant in Israel?

the largest photovoltaic power plant in Israel was built in December 2014 at Ramat Hovav, over a risky dumpsite.

What is Israel's biggest PV project?

Teralight has activated Israel's biggest PV project, the 150 MW Ta'anach 1 array, which will produce 310 GWh of energy per year. The facility will be expanded next year with the 104 MW Ta'anach 2 installation, featuring 440 MWh of energy storage.

What percentage of Israel's Energy comes from solar?

Currently, only around 10% of Israel's energy comes from solar, according to previous reports by the Environmental Protection Ministry. However, the ministry has estimated that if solar panels were adequately distributed, solar installations could generate 40% of total electricity generation in Israel by 2030.
