

Kit plus rechargeable solar container lithium battery pack

Overview

What is a lithium ion solar battery?

Engineered with cutting-edge technology, these batteries provide a reliable and efficient energy storage solution for your solar power system. With their high energy density and excellent charge retention, lithium ion solar batteries ensure you make the most of your solar-generated power, even during periods of low sunlight.

Does ENERC+ container have an UPS system?

EnerC+ container have integrated two UPS system, one is for FSS monitoring system which available capacity is 24 hours, another one is for BMS which available capacity is 20 minutes The UPS is only used to supply power to BMS components. The UPS is included in the Aux power supply.

Why should you choose lithium ion solar batteries?

Embrace the freedom of clean, renewable energy and experience uninterrupted power supply day and night with the superior performance and longevity of lithium ion solar batteries. Power up your solar journey with confidence and reduce your reliance on the grid. Have Questions?
