

Lisbon Large Energy Storage Project

Overview

What will Portugal's energy transition look like in 2026?

In addition, an auction for large-scale BESS is planned by 2026, marking a step forward in Portugal's energy transition strategy. To support critical infrastructure like hospitals, the government will provide \$28 M (€25 M) for solar PV and storage installations.

How much money does Portugal need to modernise its electricity grid?

Portugal: Portugal has unveiled a \$480 M (€400 M) investment package to modernise its electricity grid and significantly expand battery energy storage systems (BESS), following a major Iberian blackout earlier this year.

What does Portugal's energy storage tender mean for the energy transition?

Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva.

How will Portugal improve grid resilience after April blackout?

Government outlines €400 million plan to strengthen grid resilience after April blackout. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January 2026, as part of a broader €400 million package aimed at improving grid reliability and preventing future blackouts.

Lisbon Large Energy Storage Project

[Portugal Battery Storage Boom Lures Foreign ...](#)

Portugal's battery storage boom steadies prices, slashes blackouts and opens tech roles. Discover how new policies could reshape your power bill.

[New energy storage project in Lisbon Energy storage ...](#)

The EDP Group, Lisbon, Portugal, has strengthened its commitment to decarbonization by launching two units that will exploit the potential of green hydrogen and energy storage systems.
