

Lithium power station factory in Vancouver

Overview

The city of Maple Ridge in Metro Vancouver will host what is set to become the largest factory in Canada for high-performance lithium-ion battery cells. What is Canada's largest lithium-ion battery factory?

Powered by British Columbia's clean energy supply, the facility will become the largest factory in Canada for high performance lithium-ion battery cells, producing up to 135 million battery cells each year.

Where will E-One Moli Energy build a lithium-ion battery plant?

E-One Moli Energy will build this over \$1 billion lithium-ion battery cell production plant in Maple Ridge, B.C. with funding support from the both the federal and provincial governments. Photo: E-One Moli Energy.

How many vanadium flow batteries can Invinity produce a year?

Above: Guests attending the open day Expanded in a short space of time in response to the fast-growing demand for Invinity's alternative to lithium-ion batteries for energy storage projects, the Company's Vancouver facility is now able to produce up to 200 MWh of vanadium flow batteries per year.

What will BC's new lithium-ion battery factory entail?

According to the provincial government, BC's mineral sector will be a source of the critical minerals needed to produce the end products from this facility, which will be the largest factory in Canada for high-performance lithium-ion battery cells.
