

Low-pressure type discount folding containers for chemical plants

Overview

What is a goodpack intermediate bulk container (IBC)?

Managing the safe transport and storage of chemicals is a major challenge for businesses. It requires solutions that not only ensure safety and compliance with regulations but also align with sustainability and cost-efficiency goals. Goodpack's Intermediate Bulk Containers (IBCs) provide an innovative, sustainable approach to meet these demands.

Why do chemical plants use GRP containers?

Our GRP containers in chemical plants meet all the requirements of the latest technology, operational safety and official regulations. They are impressive due to their low weight and their high mechanical and thermal resistance to hostile external and internal influences.

What are intermediate bulk containers & drums?

In the dynamic landscape of the chemical industry, efficient storage solutions play a pivotal role in ensuring seamless operations and optimal safety standards. Among the myriad options available, Intermediate Bulk Containers (IBCs) and drums have emerged as frontrunners, revolutionizing the way chemicals are stored, handled, and transported.

What is a reusable bulk container?

Goodpack's reusable bulk containers are designed for seamless integration into the supply chain, offering enhanced safety and efficiency in liquid transport. Customized container liners, tailored to fit MB5 dimensions, are specifically designed for non-hazardous chemicals.
