

Majuro double glass solar curtain wall brand

Overview

What is a photovoltaic curtain wall?

Building Integrated Photovoltaics At Onyx Solar we provide tailor-made photovoltaic glass in terms of size, shape, transparency, and color for any curtain wall design. Photovoltaic curtain walls transform any building into a self-sufficient energy infrastructure and enhance the building's architectural design.

What is Jangho curtain wall?

Jangho Curtain Wall has independently developed and applied various building shading technologies, including electric shading and photovoltaic shading. Photovoltaic shading can convert solar energy into electrical energy and connect it to the building power supply system for utilization, fully implementing the concept of green buildings.

What are the advantages of Jangho curtain wall?

Compared to the main steel structure, it has advantages such as aesthetic appearance, light weight, and shorter construction period. Jangho Curtain Wall has over 30 kinds of building door and window products of 6 series and many building door and window patents.

Does Photovoltaic Glass fit in a curtain wall?

No, the BIPV photovoltaic glass structurally does not differ from other types of conventional glazing. Therefore, it is integrated into the building envelope (curtain wall, façade, or skylight) like any construction material. What solar control and comfort advantages does photovoltaic glass offer in a curtain wall?
