

Malaysia Penang Government Energy Storage Planning Scheme

Overview

Why did Penang adopt a state-wide energy policy?

Adhering to the “Penang Leads” mantra, the State took the initiative to adopt a state-wide energy policy that would contribute to the achievement of these national targets. As a highly urbanised and developed state, Penang has higher electricity consumption per capita compared to the national average (see Figure 1).

How does enegem work in Malaysia?

Peninsular Malaysia recently launched ENEGEM, a cross-border green energy trading platform. The mechanism is based on auctioning surplus renewable energy assured with RECs to foreign buyers that are licensed and registered in the receiving country’s system.

Can Penang achieve zero landfill waste?

At PE Land Penang, we are committed to pushing the frontiers of green innovation, with the ambitious goal of achieving zero landfill waste within the next two years,” Song stated. As Penang intensifies its focus on renewable energy and energy efficiency, these initiatives set a strong precedent for sustainable development.

What is Malaysia's green energy policy?

A now-discontinued Malaysian green energy policy wherein corporate consumers could virtually purchase solar energy from developers. A program that lets high/medium-voltage corporate users buy physically delivered renewable electricity through TNB’s grid from a Renewable Energy Developer (RED).
