

# **Manama New Energy Monitoring Station Site Energy**

## Overview

---

Who owns PS5 power station in Bahrain?

Aluminium Bahrain (Alba) owns PS5 and four other power stations at the Alba complex, which provides the power for its aluminium smelter operations. The 1,800MW PS5 currently comprises three combined-cycle gas turbine (CCGT) blocks, each in a 1:1:1 configuration.

What makes the Manama project successful?

The success of this project is a testament to the collaborative efforts of various stakeholders. Notably, the extensive scope of work at the Manama site, including a 220kV Gas Insulated Switchgear (GIS) extension executed by Sumitomo Corporation, exemplifies the importance of strategic partnerships in executing ambitious projects.

What is Alba Power Station 5 Block 4?

Alba Power Station 5 (PS5) Block 4 is an expansion of the existing gas-fired PS5 combined-cycle gas turbine power plant in Bahrain.

How many power stations does Alba own?

It owns five power stations (PS1 to PS5) to support aluminium smelter operations. The addition of the new block will increase the capacity of PS5 from 1,800MW to 2,481MW. Alba reached the financial close for the expansion project in November 2022.
