

# **Maseru Energy Storage Power Source Factory**

## Overview

---

When is Tesla Shanghai energy storage megafactory launching production?

Tesla Shanghai energy storage Megafactory launches production on February 11. Photo: courtesy of Tesla. Tesla held a ceremony on Tuesday to mark the production launch of its Megapack energy storage plant in Shanghai's Lingang New Area, meaning Tesla's China operations has entered a new phase, the Global Times has learned.

How big is the energy storage factory?

The energy storage factory covers an area of approximately 200,000 square meters, which is equivalent to the size of 30 standard soccer fields. It initially plans to produce 10,000 Megapack units a year, with a storage capacity of nearly 40 GWh.

What is Tesla's first energy storage facility outside the US?

As Tesla's first energy storage facility outside the US, it represents a \$201.76M investment and a milestone in China. Adjacent to the Gigafactory Shanghai, which produces over 950,000 EVs annually, the Megafactory will be a key export hub. Megapack is a powerful battery.

What is Tesla's new energy storage Gigafactory?

Tesla's new energy storage Gigafactory in Shanghai marks a significant expansion in the company's global operations, aligning with Tesla's ongoing growth strategy in the energy sector.
