

Micro generator solar container outdoor power

Overview

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.

What is a mobile solar container?

The mobile solar container range redefines on-site power by harnessing the sun's energy in an efficient and reliable way to maximize the solar yield. Hybrid performance with a generator or an Energy Storage System makes the ZSC mobile solar containers as part of a microgrid solution.

What makes ZSC mobile solar containers a microgrid solution?

Hybrid performance with a generator or an Energy Storage System makes the ZSC mobile solar containers as part of a microgrid solution. With paralleling capabilities with other energy sources, these solar containers become a scalable solution.

What is a solar generator?

The Solar Generator is classified under our comprehensive Solar Energy System range. Manufacturers who produce solar energy systems in bulk benefit from economies of scale, allowing for cost-efficiency in production and lower per unit costs.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.
