

Myanmar Solar Lighting

Overview

Is there solar power in Myanmar?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar power systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system. Solar power is currently an option only for rural and off-grid applications in Myanmar.

What are photovoltaics used for in Myanmar?

In rural areas, photovoltaics are used for charging batteries and pumping water. 70% of the Myanmar population live in rural areas. Myanmar's opened its first solar power plant in Minbu, Magway Division, in November 2018. It can produce as much as 170MW of electricity.

Can solar panels be installed on a house in Myanmar?

This photo taken on Oct. 4, 2024 shows solar panels installed on the roof of a house in Yangon, Myanmar. (Xinhua/Myo Kyaw Soe).

Why are Chinese solar panels popular in Myanmar?

Chaik Sai, 46, expressed his preference to Chinese-made solar panels, noting their popularity in Myanmar. These panels can provide steady power and light, which helps prevent the frequent on-and-off situations that can damage electrical appliances.
