

New Zealand solar container communication station solar power generation system quotation

Overview

Why do you need a solar container?

Deploy power in hours Perfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

Why should you go solar in New Zealand?

Going solar demonstrates your commitment to sustainability and will help New Zealand achieve its target of net zero greenhouse gas emissions by 2050. Innovation and new technologies have led to new ways to generate, store and sell electricity back to the grid.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Does Sunergise pay for solar panels?

Sunergise designed and financed the installation of solar panels on the hotel roof and provides ongoing maintenance. Sudima pays for the electricity it uses from the solar system, and any surplus is sold back to the grid by Sunergise. Key project stats:
