

New solar container energy storage system of Chiang Mai Electric Power Company Thailand

Overview

The system uses DC fast charging technology to form a microgrid with photovoltaic power generation, energy storage, and smart charging facilities, and can achieve two operating modes: grid-connected and off-grid according to demand.

Who is Chiang Mai solar?

the only local manufacture of solar panels! Chiang Mai Solar designs and installs solar-related systems such as Solar Electric Systems, Solar Water Heating, Solar Pool Heating and many more. Utilizing solar energy through Solar cells or a dedicated solar power receiver. To help save money in the long term and environmental friendly.

Does Chiang Mai solar repair equipment?

Chiang Mai Solar has the ability to repair equipment or defective materials in each model, which requires experience in the equipment. Under the supervision of knowledgeable engineers, to correct the on-the-spot and get the system back to work perfectly.

Why should you choose Chiang Mai solar?

Knowledge of SOLAX Technology Battery products is another advantage of Chiang Mai Solar. We can provide accurate information for customers. It also introduces the product range for efficient energy storage and trouble-free later installation.

overall amount of electricity of the house.

How many mw can a solar generator store in Thailand?

Their total combined storage capacity was 994 MW. Interestingly, this allowed generators to sign semi-firm power purchase agreements (PPAs) with the Electricity Generating Authority of Thailand (EGAT) with minimum availability guarantees. Many solar projects in Thailand have non-firm PPAs in place due to a lack of storage on site.
