

Nordic p-type solar panel manufacturers

Overview

Who is solarnordics?

SolarNordics is a brand within the German company Strategica GmbH, focusing on expanding the footprint of solar generated renewable energy in the Nordic market. The main segment within the solar industry, where SolarNordics sells and distributes solar equipment, are focused on solar panels, battery and power stations and inverters.

Why are Nordic solar panels better than standard solar panels?

Because they are more efficient than standard glass solar panels you'll get higher production from a relatively small size. Together with the minimum thickness of only 3mm they are ideal for use on campers, caravans, or other recreational vehicles. The Nordic series is fitted with a smooth surface and is not designed to be walked upon intensively.

What is the Nordic series?

The Nordic Series has been developed by SUNBEAMsystem for use in its region of origin: the northern latitudes. It offers a universal solution for applications with a requirement for lightweight, flexible, and compact solar panels.

Where can I find a distributor/wholesaler for solar panels?

For local distributors/wholesalers, check here. ENF Solar is a definitive directory of solar companies and products. Information is checked, categorised and connected. List of solar panel manufacturers. A complete list of companies that make solar panels, including factory production and panel power ranges produced.
