

# **Poland Krakow restricts solar container lithium battery energy storage companies**

## Overview

---

Are battery energy storage systems legal in Poland?

Despite increasing regulatory activity, Poland still lacks a dedicated legal framework for Battery energy storage systems. Key risks include: Investors should conduct due diligence early and maintain close coordination with public authorities. Need legal support for a BESS project in Poland?

How many GWh of energy storage capacity will Poland have by 2035?

In a bid to tackle the challenge of the growing electricity production from renewable energy sources, the Polish utility is looking to add more than 10 GWh of energy storage capacity by 2035. Its plans involve more than 80 projects, the value of which is estimated at around PLN 18 billion (\$4.7 billion).

What is Poland's energy storage subsidy?

Learn about Poland's €1 billion energy storage subsidy aimed at installing 5.4 GWh of BESS by 2028, strengthening grid stability and accelerating the green transition.

How much money does Poland spend on battery energy storage?

Poland has finalized a comprehensive subsidy program aimed at accelerating the deployment of battery energy storage systems (BESS), with a total budget of PLN 4 billion (approximately €1 billion).
