

Port Moresby Energy Storage Power Station Distribution

Overview

What is Port Moresby power station?

The Port Moresby Power Station will provide reliable power to Port Moresby and is the lowest cost dedicated grid connected thermal generation in the country. Replacing heavy fuel oil and diesel, the gas-fired power plant also brings a material reduction in the environmental impact from power generation in PNG.

What is the Port Moresby energy project?

The project will upgrade and extend the transmission and distribution grid, improve substation capacity, as well as upgrade and rehabilitate two hydropower plants. It is aimed at reducing fossil fuel consumption, increasing access to energy supply and improving network reliability in the Port Moresby power grid.

What is the Port Moresby power grid development project?

The Port Moresby Power Grid Development Project is subdivided into six subprojects that entail significant investments into power, transmission, distribution, and generation. The project proposes the construction of new facilities and the rehabilitation of existing facilities serving Port Moresby.

Will niupower Port Moresby power station save png?

“ NiuPower is pleased and proud to have developed PNG’s first ever dedicated grid-connected gas fired power station. Our customer, PNG Power Limited, are on record as saying that the NiuPower Port Moresby Power Station coming online will save them, and thus the nation, up to K100 million annually.

Port Moresby Energy Storage Power Station Distribution

[Port Moresby Power Station -- NiuPower](#)
