

Portable UPS Power Supply Factory in Sydney Australia

Overview

What is a powershield ups?

Quality Powershield Uninterruptible power supplies (UPS) designed to offer power backup and protection from damaging power fluctuations. Powershield are a local company who make their UPS units for Australian conditions. Ideal for use in computer, CCTV, home theatre and professional server systems.

Who are ups Australia?

We are an Australian company, operating for over 30 years, offering an extensive range of backup power and renewable energy systems and services. Single phase UPS from 1KVA to 20KVA & Three phase UPS from 10KVA to 1MVA.

What is a ups power supply & how does it work?

Our UPS power supply provides protection from power surges, load shedding and unpredictable weather conditions. Uninterruptible Power Supply (UPS) ensures its internal battery gets constantly charged from mains power and delivers a steady, consistent electricity flow to any equipment or appliance plugged into it.

What is an uninterruptible power supply?

An uninterruptible power source or uninterruptible power supply is a power supply system responsible for providing emergency load in case of power failures. Whenever the primary power source of your computer is lost, the UPS power supply keeps you going for a period-of-time.
