

Portugal Energy Storage Power Station BESS Price

Overview

How much money does Portugal need to modernise its electricity grid?

Portugal: Portugal has unveiled a \$480 M (€400 M) investment package to modernise its electricity grid and significantly expand battery energy storage systems (BESS), following a major Iberian blackout earlier this year.

How much will Portugal invest in battery storage after Iberian blackout?

Portugal will invest \$480 M (€400 M) to strengthen grid stability and scale battery storage, aiming for 750 MW of BESS capacity after Iberian blackout.

Does Portugal have a Bess project?

Portugal currently has only 13 MW of operational BESS capacity but aims to scale to 750 MW. A notable step includes Galp's 5 MW / 20 MWh project launched in April, developed by Powin. An additional \$114 M (€100 M) from the EU's Recovery and Resilience Plan (RRP) will fund 500 MW of BESS across 43 selected projects.

How will Portugal improve grid resilience after April blackout?

Government outlines €400 million plan to strengthen grid resilience after April blackout. Portugal will launch a competitive tender for 750 MVA of battery energy storage before January 2026, as part of a broader €400 million package aimed at improving grid reliability and preventing future blackouts.

Portugal Energy Storage Power Station BESS Price
