

Prado installation solar container outdoor power

Overview

Can a mobile solar container run a petroleum company?

Once deployed, runs indefinitely without the need to supply fuel. Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment.

Can a solar array be used inside a container?

Solar arrays inside of a container are applicable in a number of ways. Constant improvements in PV technology make it a great, future-proof solution. Below you can find just a few examples of the possible applications. The abundance of sunlight in the deserts makes solar-powered systems the most obvious choice in these areas.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.
