

Price of 40kWh Mobile Energy Storage Container for Wastewater Treatment Plants

Overview

How much energy does a containerized wastewater treatment plant use?

No planning or buildings are required to operate a containerized wastewater treatment plant - the plant simply needs to be placed on a solid base. This saves costs in advance, and the system is also highly efficient during operation: a 20-foot container only needs 13 kWh/d. Container.One, Container.One+, Container.Pro and Container.Xtra.

What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

What is a mobile water treatment system?

Mobile solutions use our Actiflo®, Hydrotech Discfilter™, reverse osmosis, ion exchange and multimedia filtration technologies, delivered through trailers, containers and skid-mounted systems. Mobile water treatment systems offer a cost-effective alternative to fixed plants across many industrial environments.

How many m³ of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m³ of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.
