

Price of multicrystalline solar modules in the island

Overview

How much does a monocrystalline solar module cost?

The average price of monocrystalline solar modules is currently around \$0.278 per watt (with prices ranging from \$0.265 to \$0.455 per watt), while the equivalent monocrystalline prices have fallen to an average of \$0.25 cents per watt.

How much does a monocrystalline solar panel cost in India?

In India, monocrystalline solar panels are available in a panel efficiency range of 17%, 18% and 19%. The price of monocrystalline solar panels with 17% efficiency and a watt range of 250-above 300 W is Rs 47 per Wp. In the case of 18% efficient solar panels, the prices are Rs 48 per Wp for 250-300 W and Rs 50 per Wp for panels above 300W.

How much does a resale solar module cost?

For example, N-Type modules by REC listed for resale in May and July pushed up weighted average prices to \$0.411 and \$0.460 respectively. P-Type modules in September increased to \$0.311 as modules by Sirius PV, Solar4America, and Panasonic were remarketed. The same price increase was present in P-Type Bifacials for the month of December.

What are Targray's high-efficiency multicrystalline solar modules?

Targray's portfolio of high-efficiency multicrystalline solar modules is built to provide EPCs, installers, contractors and solar PV developers with reliable, cost-effective material options for their commercial and utility-scale solar energy projects.
