

Price of solar polysilicon modules

Overview

How much does a solar module cost?

With a specific silicon consumption of 14 grams per watt (g/W) and a spot price of \$28/kg, polysilicon made up costs of \$0.39/W or 12.6% of the average wholesale solar module price (\$3.10/W) in 2003. Due to the strong demand and the higher polysilicon costs, the average module price increased to \$3.35/W in 2004.

How much does polysilicon cost?

That is probably the reason why the “Sun Screen” study from Credit Lyonnais Securities Asia (CLSA) quoted an average selling price of \$24/kg for polysilicon in 2003. On January 1, 2004, an amendment of the German Renewable Energy Law significantly raised the feed-in tariff for electricity from solar power.

How much does non Xinjiang polysilicon cost?

Currently, non-Xinjiang polysilicon with traceability data generally carries a quoted premium of RMB 3–5/kg. Polysilicon prices in dollar terms are prices for polysilicon with non-China origins in dollar terms, not translated from RMB prices.

How much did polysilicon cost in 2004?

Due to the strong demand and the higher polysilicon costs, the average module price increased to \$3.35/W in 2004. With a specific silicon consumption of 13 g/W and an annual spot price average of \$43/kg, the share of the higher polysilicon costs (\$0.56/W) in the module price (\$3.35/W) rose only slightly to 16.7 % in 2004.

Price of solar polysilicon modules

[Is a 'Polysilicon OPEC' Forming in China's Solar Industry?](#)

Jul 12, 2025 · Impact on the solar supply chain: The price recovery in polysilicon is expected to trickle down, potentially leading to a profit recovery for the entire PV industry including silicon ...

[Low-end price range for photovoltaic \(PV\) modules](#)

Jun 19, 2025 · Regarding prices, the polysilicon sector shows similar trends this week, with buyers and sellers remaining at a stalemate. Fewer deliveries this week result in minimal price ...

Chinese PV Industry Brief: Polysilicon, solar module prices ...

Apr 26, 2025 · Chinese PV Industry Brief: Polysilicon, solar module prices continue to slide Polysilicon prices fell again this week amid weak market activity and elevated inventories, ...

[Polysilicon Price: Chart, Forecast, History](#)

5 days ago · Polysilicon imports into China, which leads the world's solar module production, increased almost in lock-step with the spot price. 2010 will go down in solar history as the year ...

[TaiyangNews PV Price Index - 2025](#)

4 days ago · The TaiyangNews PV Price Index is firmly in the neutral territory, if not slightly down, as Calendar Year 2025 nears its end. While upstream products are generally positive YtD, ...

OPIS Global Solar Markets , Solar Panel Materials Pricing , OPIS

From upstream polysilicon, wafers and cells, to downstream panel prices, OPIS Global Solar Markets keeps you updated on solar price trends and forward prices. It is the first solar ...

[Polysilicon Price: Chart, Forecast, History](#)

From upstream polysilicon, wafers and cells, to downstream panel prices, OPIS Global Solar Markets keeps you updated on solar price trends and ...

[China module prices climb 1.14%, industry awaits polysilicon](#)

Oct 24, 2025 · A module manufacturer source said that if the polysilicon consolidation plan is implemented, it could ease the supply-demand imbalance across the solar value chain, adding ...

PV spot price

5 days ago · InfoLink Consulting provides weekly updates on PV spot prices, covering module price, cell price, wafer price, and polysilicon price. Learn about photovoltaic panel price trends ...

Solar price trend

Price outlook: Although low-price dumping by a few players has dragged wafer prices down, current prices have already approached the cash-cost floor. Combined with expectations that ...

[Comprehensive Solar Market Pricing Report: Polysilicon...](#)

Apr 14, 2025 · Explore our in-depth analysis of the latest solar industry trends. This report covers price movements for polysilicon, wafers, cells, and modules, offering insights into market ...
