

Pyongyang 90W solar light

Overview

Which solar panel is used for LED street light 90W?

We use reliable solar panel for our LED solar street light 90W with a high conversion rate from solar energy to electric energy. The battery is LiFePO4 lithium iron phosphate type, it has fast charging time and long lifespan with over-charged and over-discharged protection.

What is a 90W solar street light?

The 90W all in one solar street light built-in 54Ah high capacity 12.8V lithium iron phosphate battery which enhanced safety, strong thermal stability, tolerance to abuse, green, non-toxic, non-polluting, high current rating and 2000 cycle life.

How much power does a solar light use?

Power: 30W/60W/90W/120W. 🌞 All in one design. The solar panel, lighting source and battery are integrated in one light. More convenient for transportation and installation. 🌙 Switched by ambient light, turned off at dusk and turned at dawn automatically. Work smartly with motion sensor detector.
