

Riyadh Hospital UPS Uninterruptible Power Supply

Overview

What is an uninterruptible power supply?

An Uninterruptible Power Supply is a backup UPS system which provides a continuous, stable and clean power supply to your electrical equipment and computer systems. In the event of a power failure the UPS system, which contains its own batteries, will continue to power your electrical equipment or systems for a set period.

What is a power management UPS system?

Power management UPS. Power supply is a backup ups system which provides a continuous, stable and clean power supply to your electrical equipment and computer systems.
