

Romanian special solar container battery

Overview

Does Romania have a grant program for battery energy storage systems?

The Romanian Ministry of Energy has launched a grant program for battery energy storage systems developed in conjunction with existing renewable energy facilities – wind, solar, or hydro. From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of €150 million (\$158 million).

Does Romania offer a subsidy for battery energy storage systems?

From ESS News Romania has launched a new subsidy scheme for behind-the-meter battery energy storage systems to the tune of €150 million (\$158 million). With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025.

How much storage capacity will Romania have in 2025?

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned by Romania's energy minister Sebastian Burduja in April, 2025.

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Florești, Cluj county, which is expected to be operational by the end of 2025.
